- Nineteen yaers in outstanding and own pragmatic teaching method.
- The leading institution in shaping future scientists and innovators.
- Recognition for excellence in science education and extracurricular activities.
- A dedicated dream materialized career builder through scientific & humanitarian process.

## RC LABORATORIES

### WHERE SCIENCE MEETS DISCOVERY

#### PHYSICS LAB

- Well-Equipped Laboratory Spacious, well-ventilated, & designed for safe & efficient experimentation.
- With modern instruments and apparatus for precise measurements.
- Separate workstations for individual and group experiments.

#### CHEMISTRY LAB

- Modern Laboratory setup comprehensive experimental facilities like Qualitative Analysis, Quantitative Analysis, Organic Chemistry Experiments, Physical Chemistry, Thermochemistry
- High-Quality Laboratory Equipment with live demonstrations of chemical reactions for real-world applications.

#### BIOLOGY LAB

- Modern microscopes, slides, & specimens for in-depth study of botany, zoology, and human anatomy.
- High-Quality Equipment and Specimens Compound & dissecting microscopes for detailed plant studies. Slides of various plant tissues and microscopic structures.

#### COMPUTER LAB

- High-speed internet and the latest software for programming, data analysis, and simulations.
- Access to tools for learning coding, computational science, and digital research.

# RC IMPLEMENTING

## APPLICATION

To ensure seamless communication between the college, students and parents, our +2 Science College has integrated a College ERP System / Android Application. This system provides real-time access to student information, academic progress, Health Condition and other essential updates.

- Student Academic Performance Tracking view like attendance records daily, weekly & monthly. Access exam results, grades and progress reports through the Android Application..
- Digital Communication & Notifications Instant alerts for important announcements and events. College notices, holiday schedules, and direct messaging system between parents and faculty.
- Guardians must register their visit in advance through the college's online ERP portal. Guardians are required to provide details, including name, contact information, and purpose of visit & a photograph of the visitor is captured at the time of entry and linked to their gate pass by which is Guardians receive real-time notifications about their visit status (entry and exit) through the Android Application.
- Fee Management & Online Payment, view fee structure, dues, and payment history. Secure online payment gateway for hassle-free transactions. Automated reminders for pending fees and due dates.

## RC LECTURERS

### THE ARCHITECTS OF KNOWLEDGE

- Highly Qualified and Experienced Lecturers with advanced degrees (M.Sc., Ph.D.) and extensive teaching experience in Odia, Sanskrit, English, Physics, Chemistry, Mathematics, Biology & IT .
- Specialized educators for competitive exams like JEE, NEET, ICAR, OJEE, OUAT, NEST and other entrance tests.
- Use of modern teaching tools like smartboards, projectors, and multimedia presentations to make learning engaging.
- Emphasis on conceptual clarity through real-life examples and practical applications.
- Personalized Attention with small batch sizes to ensure individual attention and address student queries effectively.
- Dedicated hours for doubt resolution and extra help for challenging topics. Access to lecturers outside classroom hours for additional support.
- Well-structured notes, practice problems, and reference materials provided by lecturers. Guidance on exam strategies, time management, and problem-solving techniques.
- Guidance on career options, college admissions, and future pathways in science. Support for building a strong foundation for higher education and professional success.
